

JAYASELVI M

Frontend Developer – React.js

Coimbatore, Tamil Nadu, India | jayasselvi462@gmail.com | +91 87541 00515 | linkedin.com/in/jayaselvi-m

PROFESSIONAL SUMMARY

Frontend Developer with 1.6 years of experience building responsive, scalable web applications using React.js, JavaScript (ES6+), HTML5, and CSS3 for an AI-native, multi-tenant enterprise HR SaaS platform. Skilled in React Hooks, Redux state management, Material UI, Tailwind CSS, and Bootstrap, with a strong focus on reusable components, responsive design, and cross-browser compatibility. Experienced in integrating REST APIs, testing APIs with Postman, and collaborating with backend, design, and QA teams in an Agile/Scrum environment. Working knowledge of Node.js, Java, Spring Boot, and PostgreSQL.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+), HTML5, CSS3, Java, SQL
- **Frontend:** React.js, React Hooks, Redux, Material UI, Tailwind CSS, Bootstrap, Responsive Web Design, Component-Based Architecture
- **APIs:** REST API Integration, Postman
- **Backend & Database (Working Knowledge):** Node.js, Spring Boot, PostgreSQL
- **Tools & Practices:** Git, GitHub, VS Code, Agile/Scrum, Code Reviews, Cross-Browser Debugging
- **Domain:** HRMS & ERP – Recruitment, Onboarding, Attendance, Leave Management, Payroll, Employee Self-Service

PROFESSIONAL EXPERIENCE

Associate Software Engineer (Frontend Developer) | Vyoog Information Pvt. Ltd., Coimbatore **March 2025 – Present**

Product: HR App, Enterprise Intelligent Suite (EIS) – AI-native, multi-tenant SaaS platform

- Developed and redesigned React.js front-end modules covering the full employee lifecycle: recruitment, onboarding, attendance, leave approvals, and payroll-facing screens.
- Converted UI/UX designs and complex business workflows into clean, reusable React components using Hooks, Redux, and Material UI.
- Built the Attendance Management module UI and integrated it with payroll processing, automating attendance and shift-based salary inputs.
- Designed a configurable, single-screen Leave Request approval workflow with role-based views and notifications.
- Built fully responsive layouts that work consistently across desktop, tablet, and mobile devices.
- Integrated front-end components with REST APIs, validating endpoints with Postman, in close collaboration with backend engineers.
- Developed front-end interfaces for AI-powered features: candidate shortlisting, automated job description generation, and an employee self-service chatbot.
- Debugged and resolved UI issues across browsers and devices, improving performance and usability.
- Participated in Agile ceremonies and code reviews, using Git and GitHub for version control.

EDUCATION

B.E. | Sri Ranganathar Institute of Engineering and Technology, Coimbatore
CGPA: 8.1

Sep 2019 – May 2023
